Rules and Regulations on Electrical Services

1. Standard electricity supply

- 1.1 There are two main power supply circuits: "Lighting Power Circuit" and "For Exhibit Power Circuit".
- 1.2 The standard supply is a single phase AC 220V, 50Hz with approximately 10% voltage fluctuation. For the safety of your equipment, please use a stabilizer.
- 1.3 All electrical motors must have independent automatic protection against excessive current surge. The Following starter systems should therefore be used:
 - 1.3.1 Direct on line: for up to 5 Hp motor
 - 1.3.2 Star delta: for 5 to 25 Hp motor
 - 1.3.3 Auto transformer: for above 25 Hp motor

2. Standard shell scheme booth electricity

- 2.1 The electrical system provided by the organizer in 3.00x3.00 meter standard shell scheme booth depends on each manual. All electrical consumption charges included 5 Am pare socket is not for lighting.
- 2.2 The Electrical Services Order Form is divided into 3 sections as
 - Section A : for exhibitors who require individual light fittings (including electrical consumption charges).
 - Section B : for exhibitors who need electrical services for their exhibits equipment, not for lighting (220V.1P).
 - Section C : for exhibitors who need electrical services for their lighting equipment (220V.1P).
- 2.3 Additional electrical requirements have to be ordered through the Electrical Services Order Form with locations for installation specified in plan. Please read the terms.
- 2.4 It is mandatory for those exhibitors who have been authorized to use their own special lighting to order electrical sources using Section C on the Electrical Order Form.
- 2.5 The organizer reserves the right to disconnect the electrical supply to any installations, which in the opinion of Kanex Exhibition could be harmful or likely to cause annoyance to visitors or other exhibitors.
- 2.6 Power supplies to the exhibits will be switched off at source 60 minutes after the exhibition closes every evening of the exhibition. Exhibitors who require 24 hours electricity supply to their specific devices requirements should apply.
